

Doctor Discussion Guide

Your doctor is your best source of information about plaque psoriasis and its treatment. By planning for the appointment beforehand, you can be sure to get the most from your doctor visit. Take time to think about any questions you may have before you go. We've created a Doctor Discussion Guide to help you get started.

The Doctor Discussion Guide includes some suggestions for questions to ask and information to share with your doctor. Complete this guide to help you think about topics you may want to discuss. Use the space provided to write any additional questions or information you want to talk about, and be sure to take it with you to your next appointment.

TO LEARN MORE ABOUT PSORIASIS

Ask:

- Why do I have psoriasis?
- How should I care for my skin?
- Is there anything I should look for (or avoid) in skin- or hair-care products?

Share:

- How long you've had psoriasis, where it most often occurs, and the frequency of flare-ups
- Any family history of psoriasis

TO LEARN MORE ABOUT WHETHER SORILUX FOAM IS RIGHT FOR YOU

Ask:

- How does SORILUX Foam work?
- How do I apply SORILUX Foam?
- How soon can I expect to see results?
- What are the most common side effects of SORILUX Foam?

Share:

- Your treatment history, including the products you've tried and how well they have worked for you
- Your current treatment regimen and how well it is working for you

Write any additional questions you have or topics you want to discuss in the space provided.

Please see Important Safety Information on the following pages and full Prescribing Information at SORILUXFoam.com

Sorilux[®] 
(calcipotriene) Foam, 0.005%

Indication

SORILUX Foam is indicated for the topical treatment of plaque psoriasis of the scalp and body in patients 18 years and older.

Important Safety Information

- Do not use SORILUX Foam if you have been told by your doctor that you have a high level of calcium in your blood (hypercalcemia). The medicine in SORILUX Foam has been shown to cause hypercalcemia. If hypercalcemia occurs, stop using SORILUX Foam until calcium levels return to normal
- SORILUX Foam is flammable. Avoid fire, flame, or smoking during and right after you apply SORILUX Foam to your skin
- The most common side effects of SORILUX Foam are redness and pain of the treated skin areas
- SORILUX Foam is for use on the skin only. Do not get SORILUX Foam on your face or in your eyes, mouth, or vagina
- Tell your doctor if you are pregnant or planning to become pregnant. It is not known if SORILUX Foam can harm your unborn baby
- Tell your doctor if you are breastfeeding. It is not known if SORILUX Foam passes into breast milk. Do not apply SORILUX Foam to the chest areas if you are breastfeeding a baby. This will help to prevent the baby from accidentally getting SORILUX Foam into his/her mouth
- Tell your doctor if you are getting light therapy for your psoriasis
- Tell your doctor if you have any other medical conditions
